

Implementation of Regulation on Supplementary Examinations

Dear Student

As you are aware, the University has been administering Special Examinations as provided for under Clause 4.4.3.1 of the General Academic Regulations. The General Academic Regulations also have provision for students to sit supplementary examinations (Clause 4.4.3.2). Therefore, the University has put in place arrangements for students to also sit the Supplementary Examinations. Please note that those grades that qualify a student to supplement an examination range from 40% - 49%. (Clause 4.4.3.3) and “the highest overall grade obtainable after sitting for a supplementary examination is 50%” (Clause 4.4.3.4)

Based on the above, all the students who qualify to sit the Supplementary Examinations from the May 2023 examination session are advised to contact their respective Regional Campuses to be included in the list of Candidates to sit the Supplementary/ Special Examinations, scheduled for 24th – 31st July 2023.

Thank you.

Yours Faithfully
